

# GLOBAL VISIONS COACHING

## **Customized Team Coaching**

Team Coaching is customized to meet your organization's needs. Team coaching allows teams to acknowledge their strengths and weaknesses, to increase positivity and productivity, and to learn to trust each other enough to have effective conflict. The tools we use in our team coaching process are designed to create awareness, encourage alignment, and foster effective communication.

## **Building High Performance Teams:**

- What would be possible for your business if your team “fired on all cylinders”?
- What characteristic of your team do you most want to encourage or develop?
- What characteristic of your team do you most want to encourage or develop?
- What is the shared vision for your team?
- What one thing, if it changed, would be the most powerful in creating a highly effective and positive team experience for everyone?

## **Team Coaching 101**

Using the Team Diagnostic™ Assessment, your team submits blind data by responding anonymously to carefully crafted statements about the current state of their working relationships. Their responses port algorithmically to fourteen factors that are known from a psychometric standpoint to impact productivity and positivity. This assessment is followed by unique and effective group work allowing the members of your team to connect, build trust, and create a sustainable action plan.

## **Team Benefits:**

- Improved communication
- Increased team morale
- Reduced staff “drama”
- Creation of compelling team agreements
- Increased responsibility (co-responsibility) & accountability
- Sustainable and action ready steps

**As a leader you can spend more time:**

- Leading your team to greatness
- Delegating comfortably
- Implementing all those great ideas you've had, but never had the time to do
- Aligning with your company's mission
- Positively impacting the bottom line

**Is your team working to its full potential?**

Ask me how you can increase your team's productivity and positivity!  
Contact me, Nidhi, today to schedule a complimentary consultation to discuss your team coaching needs.
